

CERASHIELD DETAILER

GLASS | STAINLESS | PAINT

PROPERTIES / PRODUCT DESCRIPTION

EASY ON - EASY OFF

CeraShield Detailer is a high quality cleaning detailer spray. It delivers good cleaning as well as topping up hydrophobic properties to existing coatings.

GOOD CLEANING POWER

If you need a product which is easy to use, leaves a hydrophobic layer of protection, or need to top up existing protection – Detailer is the product to fit your needs.

SPRAY AND WIPE

CeraShield Detailer is ideal for use on metal, paintwork, plastics, GRP and many other hard surfaces. With its cleaning ability coupled with protection properties and high gloss shine it can be used to provide a stunning finish including over the top existing coatings. It can also be used to remove finger prints, light soiling and dust, on interior and exterior surfaces.

FORMULATION

Shake, spray and then buff off the surface for a slick finish that can be seen and felt immediately after application.

LEAVES A LASTING FINISH

CeraShield Detailer also has a refreshing fragrance to it making it extremely user friendly.

APPLICATION

EXTREMELY HYDROPHOBIC

For best results spray onto a clean microfibre cloth and buff into the surface to remove contaminants from the surface.
