

# CERASHIELD TOPPER SPRAY COATING

## PAINT | GRP | GLASS

### HIGH GLOSS

### EASY CLEANING

### REDUCED MAINTENANCE

### REDUCED CLEANING TIMES

### SIMPLE APPLICATION

### LEAVES A SLICK FINISH

### HIGH SPREADING RATE

### PROPERTIES / PRODUCT DESCRIPTION

CeraShield Ceramic Topper is a spray coating solution that protects smooth, non-absorbent surfaces, Ceramic Topper increases hydrophobicity and leaves a high shine and gloss finish that feels slick to the touch.

The surface protected with Ceramic Topper can be cleaned repeatedly without degrading the coating.

CeraShield Ceramic Topper is suitable for polished, non-absorbent surfaces such as two-component paints, GRP, and glass.

### APPLICATION

Spray onto a microfibre cloth, wipe on and buff off lightly by hand. (always apply a test patch)
