CLEANS & PROTECTS

PH NEUTRAL

MAINTAINS AND ENHANCES PROTECTED PAINTWORK

CONCENTRATED FORMULA

HIGH FOAM FORMULATION

STREAK & SPOT FREE

SILICONE FREE

WATERMELON FRAGRANCE

PROPERTIES / PRODUCT DESCRIPTION

Ceramic Washdown Shampoo is a highly concentrated pH neutral shampoo that is designed to clean and protect in a single step. The shampoo has all the features of a high quality shampoo including foam, detergency, lubricity, and gloss enhancing, whilst also leaving behind a layer of hydrophobic polymers. These will protect previously untreated surfaces or maintain/enhance the performance of existing ceramic coating, wax, or sealant.

The product is supplied with a pleasant fruity watermelon fragrance and is highly concentrated making it extremely dilutable in use.

DIRECTIONS OF USE

Prior to extensive use, always test compatibility on an inconspicuous area of the surface. Rinse off loose dirt. Pour 25-45ml of Ceramic Shampoo into an empty 10L bucket and add water.

We suggest using a bucket with a grit guard or rinsing the wash mitt in a clean bucket of water after each use, before dipping into the shampoo solution. Apply the shampoo by wash mitt, cleaning from the top and working downwards. For maximum protection, apply a small amount of neat product to the wash mitt. Do not allow to dry onto the surface. Rinse off with clean water and dry with microfibre drying towel.

TECHNICAL DATA

Appearance: Coloured liquid

Colour: Purple

Odour: Watermelon

Solubility: Soluble in water

Shelf Life: 12 months - do not allow to freeze

Stability: Stable under normal temperature conditions and recommended use.

Compatibility: All surfaces (always apply a test patch)

Relative density: ~1

pH: ~7

Container sizes: 1L, 5L

Concentrate: 1ltr = 40 Buckets
