

## CERASHIELD FLY RUST REMOVER SUPERIOR REMOVAL PERFORMANCE

### PROPERTIES / PRODUCT DESCRIPTION

#### EASY REMOVAL

CeraShield fly rust remover provides an easy removal solution for fly rust on painted surfaces. The product works by capturing and dissolving oxidised iron particles, accompanied by a characteristic change in colour to a deep purple.

#### LSP SAFE

It can be used as part of a deep clean process or regular maintenance, and provides a very effective, yet mild, LSP safe, cleaning experience on all painted surfaces.

#### PREMIUM

The non-thickened formulations allows the product to quickly cover the entire surface to give a more rapid reaction.

#### pH NEUTRAL

The product is intended to be applied using a spray and to be allowed a suitable contact time. Where possible, surfaces should be washed down prior to use to remove any loose contamination. Ensure the surface temperature is cooled by washing down, prior to application, to avoid the product drying out.

#### URNS PURPLE ON REACTION

WARNING: The product should not be allowed to dry on the surface so care should be taken in warm conditions including direct sunlight.

CONSTANT RINSING WITH WATER IS RECOMMENDED.

### TECHNICAL DATA

**Appearance:** Pale Purple

**Consistency:** Water

**Application:** Spray Application

**Compatibility:** All Surfaces (always apply a test patch)

**Shelf Life:** 12 months

**Container sizes:** 250ml & 500ml

All bottles are made with PET plastic and suitable for recycling
